

**Juniper 2x25 Gallon Multi-Engine Compressor Washing Rig
Part No. JMP/CFM56/D/4777/C700**

This rig is all as per our rig JMP/CFM56/D/4777/C200 but for the following modifications:

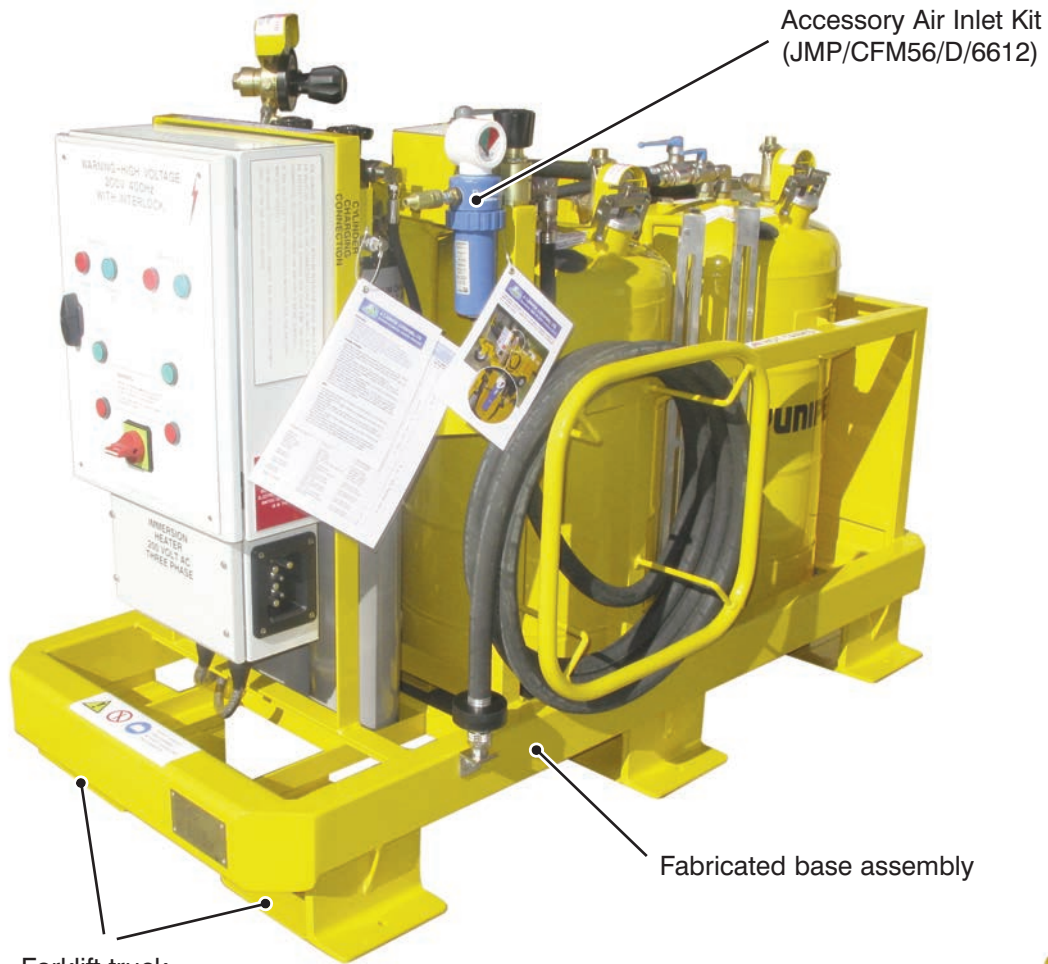

Items removed:

- Wheels, axles and steering assembly.
- Container, stowage (for engine probes).

Items added:

- Fabricated base assembly complete with forklift truck box sections either end.
- Air Inlet Kit (JMP/CFM56/D/6612).
- Operating instruction panel fitted to one end of the rig.

Note: The complete frame assembly incorporating the new fabricated base and operating instruction panel now has the part number: JMP/CFM56/D/6912
